Well I don't know why you come here  
But you can't stay  
Let's make that clear

Your eyes are closed but you don't speak  
Is it comfort that you seek  
Maybe we can just pretend

Leaves are falling down like rain  
And I look to you again  
Would you come away with me

Leaves are falling down like rain  
You can see right through my pain  
Like a window to the sea

Now your standing in the rain  
That old feelings back again  
But I don't know you anymore  
The love I have is from before

And it's falling  
Falling  
Falling

Leaves are falling down like rain  
And I look to you again  
But it's only just a sea

Leaves are falling down like rain  
You can see right through my pain  
Like a window to the sea  
All is falling down
