

Jesse Harris **"Another Place"**

Visit "[Another Place](#)" on MotoLyrics.com

Can there be another place
Someplace you could find
Can there be another place in your mind?
Can there be another place
You don't have to try so hard?
Can there be another place?
A face turns you on
And woos you with its song
But leaves you wondering
What went wrong this time
Can there be another place
Not up in the sky
Can there be another place nearby?
Can there be another place
You don't have to fly so far?
Can there be another place?
A face turns you on
And woos you with its song
But leaves you wondering
What went wrong this time
A face turns you on
And woos you with its song
But leaves you wondering
What went wrong this time
