One question I'd ask
Since nothing's gone as planned
Why do I keep running as fast as I can
Down roads that lead to nowhere
I will never understand
I took your warm hand
And led you past fountains
Where men played in string bands
Down from the mountains
We rolled along to nowhere
I will never understand
I will never understand
You long again for foreign lands
The lion's den and burning sand
One thing I ask
If I may ask something
Give love to somebody
While I keep blowing
Like wind forever nowhere
I will never understand
I will never understand
