How can I leave you? I don't know  
Oh, 'cause there've been so many days  
So hard I thought I couldn't stay  
But how can I go?

How can I leave you? I'll never see  
Oh, any other place to be  
Look at me walking down the street  
How can I go?

And then you put me down again  
Yes, but sometimes you let me win just for the show  
I never know what I might miss  
Yes, but it's mad to live like this  
How can I go?

I never know what I might miss  
Yes, but it's mad to live like this  
How can I go?
