Faith I need you on my side  
When I want to run and hide  
Iâ€™m leaving places that Iâ€™ve known  
In my gutâ€™s a heavy stone  
Once I waited for things to come  
Leaving everything undone  
Sat and watched the wheels of chance  
While around me candles danced  
Take your hat cause itâ€™s cold outside  
The moon has come and gone  
Day is here, weâ€™ve been up all night  
Iâ€™m so tired now, but Iâ€™m alright  
Iâ€™m alright, Iâ€™m alright  
Take your hat cause itâ€™s cold outside  
The moon has come and gone  
Day is here, weâ€™ve been up all night  
Iâ€™m so tired now, but Iâ€™m alright  
Iâ€™m alright, Iâ€™m alright  
Oh Iâ€™m alright, Iâ€™m alright, Iâ€™m alright
