## "On A Day"

Visit "[On A Day](#)" on [MotoLyrics.com](https://MotoLyrics.com)

On a day unlike any other day  
When you're midway through the sky  
And you know more than you've ever known  
All you wanted was a lie

Now you sit quietly  
Staring down at the sea  
You are free to be anybody  
Anybody you wanna be

On a night unlike any other night  
It is alright to want more  
When you see more than you've ever seen  
Then you walk right through the door

Now you sit quietly  
Staring down at the sea  
You are free to be anybody  
Anybody you wanna be

You are free to be anybody  
Anybody you wanna be  
You wanna be, you wanna be  
You wanna be
