"Slow Down"

Do you have to leave now?
Do you have to go?
I know the world is racing
And time never stops I know

But nothing's really changing
So what's another day?
How can you close your eyes
And how can you turn away?

Slow down
Slow down
Slow down
And stay awhile

Don't you make me wait here
And walk the shore alone
And only think about you
And kiss you on the phone

Slow down
Slow down
Slow down
And stay awhile
