## "While We Slept"

Visit "[While We Slept](#)" on [MotoLyrics.com](https://MotoLyrics.com)

No, I would never say  
You were not here  
Just yesterday  
It seems so near

I know we'll never be  
Back there again  
But can't believe  
That it could end

But while we slept  
Life changed us  
And time went by

And though where we once stood  
Is still the same  
It does no good  
To call your name

'Cause while we slept  
Life changed us  
And time went by  
Time went by

It won't stop now  
It won't stop now  
It won't stop now  
It won't stop now
