You were other people  
I'm never gonna see  
I'm never gonna see  
The way you used to be

And I was other people  
You're never gonna know  
You're never gonna know  
The way I was before

Look down at the picture  
And you just have to laugh  
And it isn't me  
It's just a photograph

And we've been other places  
I never wanna go  
I never wanna go  
And feel again so low

Look down at the postcard  
And you just have to laugh  
That isn't the West Coast  
It's just a photograph

Look down at the picture  
And you just have to laugh  
It isn't me  
It's just a photograph
