Watching leaves falling off the trees  
you're the last person that i thought i'd ever need  
now you're gone so far away  
oh, i wish i'd told you how much i wanted you to stay

maybe, baby,  
i just misunderstood  
oh, Lord  
honey, baby girl, you know you did me good

i'm just wanting you  
i'm just wanting you, baby

all my life i've felt alone  
waited for a woman like you to call my very own  
never thought that day would come, oh no  
but you came right into my life & WHOO!, you turned  
me on

you make me sad  
but i wouldn't change my thoughts for anything in the  
world  
still in love  
'cause i wish you'd be my girl

i'm just wanting you (heee)  
i'm just wanting you, baby  
i'm just wanting you  
i'm just wanting you  
i said wanting you  
oh, baby, let me make love to you one time, oh
