(Lead Vocal by Jesse McCartney)
(Written by Jesse & his band!)

(The Verse)

As I walk a walk around this crowded town
Looking at faces and nothing but 'clouds'
Don't know where they're going
What they wanna do
So they sit
And they 'mope they must do'

(The Chorus)

But this one girl, this one girl is smiling
Reading a comic book while eating her ice cream
Licking the drip, drip, drip, drop falling down
She knows just what she wants to be
Outside this crowded town
She knows just what she wants to be
Outside this crowded town
