We sing along to broken songs
We work all week in double speak
We celebrate like strangers

I can make it happen
I can make it happen
Little star

When the raindrops fall
And you heard it all
Let the fog winds blow away

Misunderstood
Like Robin Hood
And Peter Pan, redemption

I can make it happen
I can make it happen
Little star

When the raindrops fall
And you heard it all
Let the fog winds blow away

If I could only make you
Believe in me
We'll find our place of our own
In this galaxy

We'll run away in unmarked cars
We'll find our place beneath these stars
Just click your heels, don't touch that dial
Hold me close, redemption

I can make it happen
I can make it happen
I can make it happen
Little star

When the raindrops fall
And you heard it all
Let the fog winds blow away

On a night like this
You can make a wish
And it's one more kiss away, away, away
