Ready...here we go...

The Second Star

Dream your way to the stars in the sky

You and me, me and you on our way to the top

Spread your wings, we can fly to the stars in the sky

To the left to the moon is the star on the right

And I can meet you, I can meet you, I can meet you

The Second Star to the right

Shines in the night for you

To tell you that the dreams you plan

Really can come true

The second star to the right,

Shines with a light that's rare.

And if it's Never Land you need,

It's light will lead you there.

Twinkle, twinkle, little star (little star)

So I'll know (I will know) where you are (where you are.)

Gleaming in the skies above (ohhh)

Lead me to the land I dreamed of.

And when our journey is through,

Each time we say good night, (say goodnight)

We'll thank the little star that shines,

The second from the right. (Second from the right)

The second star, yeahhh ohhh

The second star, woahhh

Dream me away to the stars never stop

You and me, me and you, on our way to the top.

Twinkle, twinkle, little star

So I'll know where you are (where you are.)

Gleaming in the skies above (ohhh)

Lead me to the land I dreamed of.

And when our journey is through,

Each time we say good night, (we say goodnight)

We'll thank the little star that shines,
The second from the right (second from the right)

The second star, yeahhh
The second star, woahhh

Every time you need it's light, it'll be there
To show the dreams you plan can come true.
