O that body's like music to my ear
O that body's like music to my ear
O that body's like music to my ear
what you want is right here

Oh she, oh she so international
The way, the way she get it on the floor
I'm tryin' I'm tryin' to holler at you
I want, to get, to know you better

Parlez vous francais?
Konichiwa come and move in my way
Hey, little chica from Guadeloupe
That thing you got behind you is amazing

Now, I don't speak Spanish, Japanese or French
But the way that body's talkin' definitely makes sense
It's her, her body, her body, her body language
It's her, her body, her body, her body language
The way she moves around
When she grinds to the beat
Breaking it down articulately
It's her, her body, her body, her body language
It's her, her body, her body

That make me want to say
he-ey, he-ey, he-ey
It's her, her body, her body
her body language come on

Shorty, let me whisper in your ear
Tell you, everything you wanna hear
You got my vote Hottest Girl of the Year
Let's have a ce-lebra-tion, baby

Parlez vous francais?
Konichiwa
Come and move in my way
Hey, little chica from Guadeloupe
That thing you got behind you is amazing

Now, I don't speak Spanish, Japanese or French
But the way that body's talkin' definitely makes sense
It's her, her body, her body, her body language
It's her, her body, her body, her body language
The way she moves around
When she grinds to the beat
Breaking it down articulately
It's her, her body, her body, her body language
It's her, her body, her body

That make me want to say
he-ey, he-ey, he-ey
It's her, her body, her body
her body language c'mon

I'm lifting up my voice to say
You're the hottest girl in the world today
The way you shake
You got me losing my mind
You're banging like a speakerbox
Turn around the party stops
Universal lady, let me take you away

Now, I don't speak Spanish, Japanese or French
But the way that body's talkin' definitely makes sense
It's her, her body, her body, her body language
It's her, her body, her body, her body language
It's the way she moves around
When she grinds to the beat
Breaking it down articulately
It's her, her body, her body, her body language
It's her, her body, her body

That make me want to say
he-ey, he-ey, he-ey
It's her, her body, her body
her body language c'mon

O that body's like music to my ear
O that body's like music to my ear
O that body's like music to my ear
What you want is right here
