Let me introduce myself  
For those a y'all who don't know  
It was me who kicked down  
The door back in 2004  
Thought that you knew me  
When I was bringin' "Beautiful Soul"  
That was a preview  
Let me shoot you the first episode  
Make ups and break ups, yeah  
I fell in and out of love  
Wrote it all down for you  
Just to look it up  
21 years, hoppin' in and out of clubs  
What would you do in my shoes?  
You'd be livin' it up

But don't get it twisted, yeah  
There's a piece that you've never seen  
Tryin' to keep the sh\*\*  
From effecting my whole family  
Caught in the middle  
With a friend who's an enemy  
I do what I can  
'Cause in the end  
I'm where I wanna be

Don't need to talk about it  
Just let the record play  
Hate it or love it?  
It don't matter  
'Cause I'm here to stay  
Ladies get your a\*\* up  
Give it a little shake  
And fellas throw your hands up(3x)  
(Now turn it) up(3x)  
(Now put your hands) up(3x)  
(Now put your a\*\*) up(3x)  
(Now turn it) up(3x)
