doesn't matter much what u will say
cause i am leaving u now anyway
gonna have some fun just for a change
and u cant do a thing to make me stay
gonna throw away ur picture in the rain
cause they dont mean a single thing
i just wanna have some fun with some one
so bye bye baby bye bye

chours
kissing u goodbye
starting a new life
now i know that finally i'm done and through with u
u are not the one who can give me all
kissing u goodbye
no more needs to try
now i know exactly what i wanna do in my life
u will not be there
cause we have nothin more to share

i have never been so satisfied
with anything before in my life no no

leaving u was the best thing i could do
i'm so glad that we are through

chours 1x

finally
i can see
we were never meant to be

chour1x

kissing u goodbye
no more needs to try
now i know exactly what i wanna do in my life
u will not be there
cause we have nothin more to share
kissing u goodbye
