Ready?
Here we go
(The second star)
Dream your way to the stars
Never stop you and me
Me and you on our way to the top

Spread your wings
We could fly to the stars in the sky
To the left to the moon
There's a star on the right
and I can meet you I can meet you
I can meet you

The second star to the right
Shines in the night for you
To tell you that the dreams you plan
Really can come true (come true)
The second star to the right
Shines with a light that's rare
And if it's Neverland you need it's light will lead you
there

Twinkle Twinkle Little star (little star)
So I'll know (I will know) where you are (where you are)
Beaming in the skies above
Lead me to the land I've dreamed of

And when our journey is through
Each time we say good night (say good night)
We'll thank the little star that shines

Second from the right (second from the right)

The second star, yeah yeah oh

Dream your way to the stars
Never stop you and me
Me and you on our way to the top

Oh oh oh oh oh

Twinkle Twinkle Little star (little star)
So I'll (I will know) know where you are (where you are)
Beaming in the skies above
Lead me to the land I've dreamed of

And when our journey is through
Each time we say good night (say good night)
We'll thank the little star that shines
Second from the right (second from the right)

The Second star, yeah yeah

The Second Star, oh oh oh...
