Ready, here we go
The second star

Dream your way to the stars in the sky
You and me, me and you on our way to the top
Spread your wings, we can fly to the stars in the sky
To the left to the moon is the star on the right
And I can meet you, I can meet you, I can meet you

The second star to the right
Shines in the night for you
To tell you that the dreams you plan
Really can come true

The second star to the right
Shines with a light that's rare
And if it's Never Land you need
It's light will lead you there

Twinkle, twinkle, little star
(Little star)
So I'll know
(I will know)
Where you are
(Where you are)
Gleaming in the skies above
(Ohh)
Lead me to the land I dreamed of

And when our journey is through
Each time we say good night
(Say, goodnight)
Well thank the little star that shines
The second from the right
(Second from the right)

The second star, yeah, ohh
The second star, woah
Dream me away to the stars never stop
You and me, me and you, on our way to the top

Twinkle, twinkle, little star

So I'll know where you are
(Where you are)
Gleaming in the skies above
(Ohh)
Lead me to the land I dreamed of

And when our journey is through
Each time we say good night
(We say goodnight)
Well thank the little star that shines
The second from the right
(Second from the right)

The second star, yeah
The second star, woah
Every time you need it's light, it'll be there
To show the dreams you plan can come true
