How could time be standin' still in place?  
So slowly, yet goes by so fast  
Strange but true  
When I'm with you

And every little step I take  
While I'm away from you baby  
Everything that I do is leading me back to you  
Because when

When we're all alone, you take my breath away  
When you hold me close, you take my breath away  
When we're makin' love, you take my breath away  
Somehow I know, this is the love that I've been missing

I feel like I'm frozen in time  
Whenever your lips meet mine  
Everytime you touch me  
I go out of my mind

The passion I see in your eyes  
Has got me more than hypnotized  
Renders me defenseless girl  
I don't know what you do to me baby

When we're all alone, you take my breath away  
When you hold me close, you take my breath away  
When we're makin' love, you take my breath away  
Somehow I know, this is the love that I've been missing

Inside your love  
I lose control when we're kissin' and huggin', yeah

It's hard to express how I feel  
But what I feel is definitely real  
There's no need for me to try to conceal  
My love for you, girl, my heart just can't keep still

When we're all alone, you take my breath away  
When you hold me close, you take my breath away  
When we're makin' love, you take my breath away  
Somehow I know, this is the love that I've been missing

When we're all alone, you take my breath away  
When you hold me close, you take my breath away  
When we're makin' love, you take my breath away  
Somehow I know, the love I've been missing

When we're all alone, you take my breath away  
When you hold me close, you take my breath away
