Up and down, in and out
Baby let me turn it out
Upside down, round and round
This is how it's goin' down

Up and down, in and out
Baby let me turn it out
Upside down, round and round
This is how it's goin' down

Baby, let me tell you what's been on my mind
All the places I can hit it startin' in my ride
Or we can take it to your crib and do it on the floor
(Baby, anywhere you want it)

Let me rub you up and down and make you scream and
moan
In the kitchen, on the counter, by the telephone
Or we can do it over here, or we can do it over there
Baby, anywhere you want it

Up and down, in and out
Baby, let me turn it out
Upside down, round and round
This is how it's goin' down
(Tonight)

Up and down, in and out
Baby, let me turn it out
Upside down, round and round
This is how it's goin' down

But if you turn on the shower while we're in the tub
I'll get your body soaking wet and we can rub a dub
Or we can take it to my crib if water's what you like
(Cause baby I've got a jacuzzi)

I'll put on your favorite song, a sexy interlude
And there's a game that we can play to really set the
mood
You put your right foot in, your left foot out
And baby, watch me turn it out

Up and down, in and out
Baby, let me turn it out
Upside down, round and round
This is how it's goin' down

Up and down, in and out
Baby, let me turn it out
Upside down, round and round
This is how it's goin' down

May I ask why your clothes are still on?
Do you need a glass of Dom Perrion?
Let me turn it in and out until dawn
And when the day breaks once again, it's on

Up and down, in and out
Baby, let me turn it out
Upside down, round and round
This is how it's goin' down

Up and down, in and out
Baby, let me turn it out
Upside down, round and round
This is how it's goin' down

Up and down, in and out
Baby, let me turn it out
Upside down, round and round
This is how it's goin' down

Up and down, in and out
Baby, let me turn it out
Upside down, round and round
This is how it's goin' down

Oh baby, do you wanna go down
I wanna go down tonight
Baby, oh this is how it's goin' down

Up and down, in and out
Baby, let me turn it out
Upside down, round and round
This is how it's goin' down

Up and down, in and out
Baby, let me turn it out
