Doralee, there's water in the basement  
Saturday, you'll be sleeping in the tree  
Gone are the weeds that you tended to like children  
Gone are the days and the distance between

Doralee, there's gravel in your bath tub  
The fish swam free, looking for their ocean went  
You once loved a man whose heart was big and open  
Said he could see the beauty in a song

Doralee, there are flies among the dead now  
The fish swam free, looking for their ocean went  
You once loved a man whose heart was big and open  
Said he could see the beauty in a song  
Said he could see the beauty in a song
