How am I to believe
I've lost myself in you
Afraid to ask for what I need
So I give it to you

But I'm on your side now
Well, I'm on your side now
I'm on your side now
I'm on your side now

And if I sleep beside the river
Will it flood over me?
Well, I'm as far away from my life
As I could be
But I'm on your side now
Well, I'm on your side now
I'm on your side now
I'm on your side now

Faith is all we ever need
And I can't compete
I think on those who care for me
Care for me

But I'm on your side now
Well, I'm on your side now
I'm on your side now
I'm on your side now
