How am I to believe
I've lost myself in you
Afraid to ask for what I need
So give it to you
But I'm on your side now
I'm on your side now
I'm on your side now
I'm on your side now
And if I sleep beside the river
Will it flood over me?
Well, I'm as far away from my life
As I could be
But I'm on your side now
Well, I'm on your side now
I'm on your side now
I'm on your side now
Faith is all we ever need
And I can't compete
I think on those who care for me
Care for me
But I'm on your side now
Well, I'm on your side now
Well, I'm on your side now
I'm on your side now
