I need Mr. Rand McNally  
To show me where my heart is  
Need a little map to guide me home  
And I need two arms to hold me  
And show me where the good went  
Need a little love to feel like home

One phone call and you're swept away  
Close my eyes and everything but your words fade  
I know I'll make it thru the dark  
If I keep your love safe in my heart

When the world is crashing down  
I know I'm not alone  
If I trust what's in my heart  
No, I'm not on my own

I pray you'll always guide me  
To show me where my heart is  
Pray you're star will always guide me home  
And I've got two arms to hold me  
And show me where the good is  
Got a little love to find me home

When I'm lost and feeling out of place  
Clear my mind and remember your words of grace  
I'll keep my head up thru the dark  
Cause I've got your love safe in my heart

When the world is crashing down  
I know I'm not alone  
If I trust what's in my heart  
I'm not on my own

When the world is crashing down  
I know I'm not alone  
If I trust what's in my heart  
No, I'm not on my own
