Sway along
Music in my soul
Close my eyes
Make my own world
Tonight I get away
A low-key escapade
Where I can just be free
Where I can be looking for peace

Up in the starlight of the sky
Don't let the world weigh down on me

Lift me up
I can't feel from here
And lift me up
In the smoke I'll disappear

Four walls are holding us in
Caving
Feel like we can't win
Spill my heart on the floor
Tonight I'm closing the door
So I can just be free
So I can be
Looking for me

Up in the starlight of the sky
Don't let the world weigh down on me
Lift me up
I can't feel from here
And lift me up
In the smoke I'll disappear

I wanna lose myself
In the summer's night
Don't let it come to an end
Yeah play it over again
Carry me to that place
I feel open and free inside
Lift me up
I can't feel from here
And lift me up

In the smoke I'll disappear

Lift me up

I can't feel from here

And lift me up

In the smoke I'll disappear
