I'm just your average adorable girl  
Dressed up in your plastic world  
Brush my hair and change my clothes  
Decide whether you like my nose

Well come on  
There's more to me than you see  
There's more to me  
Can't you see  
A tiny heart beats underneath

But my beat goes on and on  
And my heart breathes on and on  
And my voice sings on and on  
So my tears don't go on and on

After midnight when the worlds asleep  
Thats when i untie my strings  
Shut out the world and give it a whirl  
Learning to become a real girl

Well come on  
There's more to me than you see  
There's more to me  
Can't you see  
A tiny heart beats underneath

But my beat goes on and on  
And my heart breathes on and on  
And my voice sings on and on  
So my tears don't go on and on
