I've been holding on for hours
But now I got you baby
A man who stand around
A gotta have you, go crazy

All that I know
It's without you on meeting
I've got to fullfil the flow
You gotta know
What you do to me
That keeps me wanting more

Take me up, take me higher
Ahhh
This is me on you, on you
Take me up up up and now play
This is me on you, on you

This is me on you
This is me on you
This is me on you

You got my hands up in the crowd
Some kinda unknown space
I'm so high and can't get down
You're blowing throught my vains
Oh Baby

All that I know
It's without you on meeting
I've got to fullfil the flow
You gotta know
What you do to me
That keeps me wanting more

Take me up, take me higher
Ahhh
This is me on you, on you
Take me up up up and now play
This is me on you, on you

This is me on you
This is me on you
This is me on you

Annh
Better baby
Yeah

All that I know
It's without you on meeting
I've got to fulfill the flow
You gotta know
What you do to me
That keeps me wanting more

Take me up, take me higher
Ahhh
This is me on you, on you
Take me up up up and now play
This is me on you, on you

Take me up, take me higher
Ahhh
This is me on you, on you
Take me up up up and now play
This is me on you, on you
