

Jessica "Get Up"

Visit "[Get Up](#)" on MotoLyrics.com

Oh, oh, yeah
Whoa, yeah

I got the heat to make your feet move to the beat
And if you sing come on and get up outta ya seat
Uh, ah, yeah, don't worry about what people think
Get on the floor and let your soul take control, oh, ah,
yeah

Set your mind all free and throw away your worries
'Cause we gon' party 'til the morning light
Despite all of your fears, no matter where you live
The P A R T Y is on tonight, yeah

All the sisters everywhere, get up
All the brothers everywhere, get up
People your hands in the air, get up
Wave 'em like you just don't care, get up

From the booth to L.A., get up
All the party people everywhere, get up
Throw away your worries and kids, get up
Put 'em up, put 'em up, everybody get on up

All of my partners in the PJs to the homies around
From around the way, let's set things off
(Whoa, yeah)
No time for tears appears 'cause the year two zero zero
zero
Is here so let's just have a good time
(Time)

Set your mind all free and throw away your worries
'Cause we gon' party 'til the morning light
Despite all of your fears, no matter where you live
The P A R T Y is on tonight, yeah

All the sisters everywhere, get up
All the brothers everywhere, get up
People your hands in the air, get up
Wave 'em like you just don't care, get up

From the booth to L.A., get up
All the party people everywhere, get up
Throw away your worries and kids, get up
Put 'em up, put 'em up, everybody get on up

I'm about to get my shake on
Turn the volume up and put this tape on
And then this can be not to fake on
My people come to help me, get my break on

Never will I do the one mistake and
Nor dance with someone that is taken
And no one will ever keep me waitin'
I gotta be the one that you're dating

Plus, I gotta be the one you call on
If you down to know then you can fall on
And that's the way it's gotta be
So let's party, get your drink on

Whatever you do, don't be rude
Just keep your cool
Gotta get your nice and let it go
And let this music take control

Set your mind all free and throw away your worries
'Cause we gon' party 'til the morning light
Despite all of your fears, no matter where you live
The P A R T Y is on tonight, yeah

All the sisters everywhere, get up
All the brothers everywhere, get up
People your hands in the air, get up
Wave 'em like you just don't care, get up

From the booth to L.A., get up
All the party people everywhere, get up
Throw away your worries and kids, get up
Put 'em up, put 'em up, everybody get on up

Chicago, get up, New York, get up
California, get up, ATL, get up
New Orleans, get up, DC, get up
