I'll always see your face  
The corner of your smile  
And all the little things  
No one will ever know

Like it was yesterday  
Won't ever fade away  
Goodbye is just a word  
I will never say

You will never be forgotten  
A million days could pass us by  
But what is time but just a dream  
I still feel you here with me  
You're more than just a memory  
You will never be forgotten

I can't hold your hand  
Or look into your eyes  
And when I talk to you  
It just echoes in my mind

But if hearts are made of dust  
And if we fell from the stars  
I look up tonight  
And know just where you are

You will never be forgotten  
A million days could pass us by  
But what is time but just a dream  
Well, I'll still feel you here with me  
You're more than just a memory  
You will never be forgotten

And the world just keeps on going  
It has no way of knowing  
That you're gone

You will never be forgotten  
A million days could pass us by  
But what is time but just a dream  
Well, I'll still feel you here with me

You're more than just a memory  
You will never be forgotten, forgotten
