[Verse 1:]

Baby, since I saw you till I let you kiss my lips
I never knew I'd have you so bad for you like this
Now I can't fake this feeling
Boy, I'm losing all control
You're a habit, I can't change
I don't wanna let you go

[Chorus:]

Got me awake when I should be sleeping
Got me up, I'll never tell
It's just something that you do
That keeps me floating all around
I've been in and out of love
One too many times
And now that you're with me
Boy, I wanna make it right
I've been in and out of love
For such a long time
And now that you're with me
I'm so happy that you're mine

[Verse 2:]

Now I don't worry about a thing
Baby, waking up next to me
Whenever we're together
There's no place I'd rather be
Boy, you make me feel alive
There's no other girl in this world
That is lucky as I am
And I put that on everything

[Chorus:]

Got me awake when I should be sleeping
I'm never, never down, no
It's just something that you do
Got me floating and floating around
Said I've been in and out of love
One too many times
And now that you're with me
Boy, I gotta make it right
I've been in and out of love

For such a long time
And now that you're with me
I'm so happy that you're mine

[Hook:]

Forever and ever, my baby
You got me forever and ever, my baby
Forever and ever, my baby
You got me forever and ever, my baby

[Ending:]

I've been in and out of love
One too many times
And now that you're with me
Boy, I gotta make it right
I've been in and out of love
For such a long time
And now that you're with me
I'm so happy that you're mine
In and out of love
Such a long time
Now that you're with me
I gotta make it right
In and out of love
One too many times
Now that you're with me
I gotta make it right
In and out of love
Such a long time
Now that you're with me
I gotta make it right
Forever and ever, my baby
You got me forever and ever, my baby
Forever and ever, my baby
You got me forever and ever, my baby
In and out of love
Now that you're with me
[fades till end]
