What is this I see
Are you really on one knee
Beggin' me

And what is this I hear
As I see one single tear
Appear

What boy, speak up, a little louder
What did you say

CHORUS

You want me... back
Oh I can't believe that
You seemed so sure when you walked out my door
And you're so... sad
That you behaved so bad
What could start this change of heart, you've lost your
mind,
I don't want you... back

Am I hearing right
Oh this is a sight
Alright

Did you think
You could change your mind in just one blink
Boy, get a shrink

What babe, spit it out, a little louder
What did you say

CHORUS

What you need is a reality check
Get up off the floor, don't whine no more
This is a pathetic display of affection

CHORUS
