Women gossip in the beauty parlor
This summer day just couldn't get any hotter
I'm wanting to get out of this town
Roll down my windows and just drive around

Do you think you'd maybe want to come too?
We could have a good time or two
Learn how to have a free spirited time
Celebrating I'm yours and you're mine

We could go anywhere
I really don't care
We could go anywhere
I really don't care

CHORUS

For once I just wanna be in love
The kind of love only cupid knows of
We could drive for hours for a walk by the sea
I'd go anywhere if you were with me

You know you told me that you'd buy me a ring
Because you figured it'd be the right thing
Well let me tell you baby
Let me tell you darlin'

I don't need diamonds to know
You'll take me to have and to hold
You know what I want
You know what I need

I wanna be told
You'll love me when we grow old
I wanna be told
You'll love me when we grow old

CHORUS
