What's keeping me, what's keeping me  
God tell me what is keeping me  
I thought I saw Resolution yesterday  
But he just smiled and waved  
What's holding me, what's holding me  
Dear God, what is holding me  
I thought I knew what laid in store  
I didn't count on locked up doors  
And all I know is something happened  
The wind changed directions  
The lovers cried and the birds flew away  
Why did I stay, why did I stay  
What tied me up, what tied me up  
Like chewing gum my feet got stuck  
Im sitting in this rusty room  
All prepared to face my doom  
You laughed at me, you laughed at me  
Said that kind of life don't come for free  
I smiled, said no, and not much does  
But why are my feet still stuck  
Again signs all pointed to

Following my simple truth  
The lovers cried and more birds flew away  
Why did I stay, why did I stay  
I can't be a walking restriction anymore  
I can't deny what fates got in store  
Why do I stay, why do I stay  
Please tell me I don't have to stay  
Friend told me I'll lend you some change  
Go find out whos calling your name  
Leave your goodbyes with me tonight  
Don't mind what's wrong just go set it right  
Last boarding call to LA  
Take your tickets here, right this way  
Don't care if I become a star  
I just wanna play my guitar  
Somethings happening  
The wind changed directions  
The lovers smiled and the last birds flew away  
I didn't stay, I didn't stay  
I flew away

I flew away  
Don't stay  
Fly away
