Jessica)
I can tell you like me
From across the room
Hit me like lightning
Here comes the boom
Should I walk on over
And come to you
Or let you chase me
Are you that type of dude?

(Cody)
Now I wonder if she knows
That she got me on hold?
Got so many things to say
Hate to let her get away
Don't care bout all the girls
They could all disappear
You're the only one I want
Wanna grab you take you home

(Chorus - Jessica & Cody)
Ba-Baby
What you doing standing with your back against the
wall?
What you doing standing with your back against the
wall?
Hey!
You and me together baby we could get it on
You and me together baby we could get it on
Oooooohh

Ain't nobody hotter than me
Uhh uhh
Ain't nobody hotter than me
No no
Ain't nobody hotter than me
Uhh uhh
Ain't nobody hotter
No nobody hotter

Baby what we got is inescapable

Inescapable, Inescapable
Baby what we got is inescapable
Incapable, Inescapable

(Jessica)
Before the night is over
I'mma hit you up
If your still sober
I'mma get you love drunk
I got the magic
You got the heat
I'm telepathic
I know what you need

(Cody)
Don't care bout all the girls
They could all disappear
You're the only one I want
Wanna grab you take you home

(Chorus - Jessica & Cody)
Baby
What you doing standing with your back against the
wall?

What you doing standing with your back against the
wall?
You and me together baby we could get it on
