Fell in love on the dance floor, fell for the DJ
He put my song on and stuck it on replay

Fell in love on the dance floor, fell for the DJ
He put my song on and stuck it on replay
High on the rhythm, jump on the grove
It turns me on when he's watching me move
Watching me move, yeah
I see him watching me move, yeah
Watching me move, yeah
Watching me move

I'm feeling you my light
Take off with me you'll be flying
Nothing between us but the rhythm
This lamborghini wants to be driven
(Wants to be driven)
(Wants to be driven)
(Wants to be be be be)

Fell in love on the dance floor, fell for the DJ
He put my song on and stuck it on replay
High on the rhythm, jump on the grove
It turns me on when he's watching me move
Watching me move, yeah
I see him watching me move, yeah
Watching me move, yeah
Watching me move

Our bodies move it's automatic
I look at you and it's magic
I bite my lip and you love it

I got that sh*t and you want it
(And you want it)
(And you want it)

Fell in love on the dance floor, fell for the DJ
He put my song on and stuck it on replay
High on the rhythm, jump on the grove
It turns me on when he's watching me move

Watching me move, yeah
I see him watching me move, yeah
Watching me move, yeah
Watching me move

Play it one more time
Back it up and take it slow
Let me blow your mind
Sit back and watch the show
Watch me now
Watch me now

Fell in love on the dance floor, fell for the DJ
He put my song on and stuck it on replay
High on the rhythm, jump on the grove
It turns me on when he's watching me move
Watching me move, yeah
I see him watching me move, yeah
Watching me move (I see him watching me move) yeah
Watching me move
Watching me move yeah
I see him watching me move, yeah
Watching me move, yeah
Watching me move
