Yeah yeah (x3)
Step up in the spot,
I got on my sneakers,
Fighting to get up front,
Standing by the speakers,
Look up to the stage,
And I can't believe it,
That I loved when you played you guitar,
So play,
So play,
I can see you sweat running down your t-shirt,
Pressing on your foot pedal,
Messing with the revert,
Who's up at the mike?
I don't care about the singer,
But I loved when you played your guitar,

(Chorus)
Baby your a superstar!
I wanna get to know who you are!
'Cause you hit those sticks so hard!
And I love, and I love, and I love when you play your
guitar!

Yeah yeah(x7)
Never ever knowed,
Lost in the music,
Then you play a solo,
And noone snoozes,
You don't even know,
Boy whatcha doin',
But I love when you play your guitar,

(Chorus)
Baby your a superstar!
I wanna get to know who you are!
'Cause you hit those sticks so hard!
And I love, and I love, and I love when you play your
guitar!

Yeah yeah (x4)

I felt sad saw you standing over there,
And you got me thinking do you even know that I'm
there,
I wish I can get to know ya,
I wish I can get to know ya,
One more time,
I felt sad saw you standing over there,
And you got me thinking do you even know that I'm
there,
I wish I can get to know ya,
I wish I can get to know ya,

Baby your a superstar!
I wanna get to know who you are!
'Cause you hit those sticks so hard!
And I love, and I love, and I love,

(Chorus)
Baby your a superstar!
I wanna get to know who you are!
'Cause you hit those sticks so hard!
And I love, and I love, and I love when you play your
guitar!

Yeah yeah (x4)
When you play your guitar,
Yeah yeah (x8)
