I miss you more than ever  
I haven't seen you for so long  
We thought it would be better  
And now another year is gone away

I hate it when I'm crying  
Sometimes it feels so wrong  
I never said I'm sorry  
And now another year is gone away

Time flies away  
She flies away  
She flies away

All I feel is over  
I know where I belong  
I want to be beside you  
But all the time I had is gone away

Time flies away  
She flies away (she flies away)  
She flies away (she flies away)  
She flies away

Looking at the photos that I took  
When you were here  
Another year (another year)  
And now another year is gone (and now another year is gone)  
Another year (another year)  
And now another year is gone (and now another year is gone)  
Another year
