"Call Me"

Visit "[Call Me](#)" on MotoLyrics.com

If you want I could go
There's no need for me to stay and be a burden
If you love me let me know
There's no need for me to sit here and wonder

I spent the whole night by myself
Wondering who you talk to who you tell
I spent the whole night waiting for you to call me

I don't know the meaning of love
But I know the meaning of fear
What will I do when that day comes
And I don't have you here

I spent the whole night by myself
Wondering who you talk to who you tell
I spent the whole night waiting for you to call me

I spent the whole night by myself
Wondering who you talk to who you tell
I spent the whole night waiting for you to call me
