

Jessica Mauboy "Forget Your Name"

Visit "[Forget Your Name](#)" on MotoLyrics.com

Funny when you had me you didn't do a thing
But now that it's over you're calling out my name
Show up uninvited to each and every place
Beggin' me to come back saying, "Baby, I swear I've
changed"

Well, take two steps back
'Cause you're spilling your drink all on me now
And you're killin' my buzz I just wanna have fun while
my girls around
Let me make this clear I don't wanna hear what ya
talkin' 'bout

It ain't about you now
Ain't about your love I don't wanna hear ya
Turn the music up so I can't remember
Who you ever were outta my life forever

I just wanna dance, dance, I just wanna dance
I just wanna dance when I fall into a trance
And I shake you off and forget your name

I just wanna dance, dance, I just wanna dance
I just wanna dance when I fall into a trance
And I shake you off and forget your name

I just wanna dance, dance, I just wanna dance
I just wanna dance when I fall into a trance
And I shake you off and forget your name

I just wanna dance, dance, I just wanna dance
I just wanna dance when I fall into a trance
And I shake you off and forget your name

They say that you don't miss a good thing 'til it's gone
Now look at you crying baby, you're alone
Hope you learnt your lesson, can't treat your woman
wrong
You can beg all night but I won't be coming home

So take two steps back
'Cause you're spilling your drink all on me now

And you're killin' my buzz I just wanna have fun while
my girls around
Let me make this clear I don't wanna hear what ya
talkin' 'bout

It ain't about you now
Ain't about your love I don't wanna hear ya
Turn the music up so I can't remember
Who you ever were outta my life forever

I just wanna dance, dance, I just wanna dance
I just wanna dance when I fall into a trance
And I shake you off and forget your name

I'm not gonna leave this place 'til I forget your memory
Stay here all night or day until you're erased

Ain't about your love, I don't wanna hear ya
Turn the music up so I can't remember
Who you ever were outta my life forever
I just wanna dance, dance, I just wanna dance

Ain't about your love I don't wanna hear ya
Turn the music up so I can't remember
Who you ever were outta my life forever

I just wanna dance, dance, I just wanna dance
I just wanna dance when I fall into a trance
And I shake you off and forget your name

I just wanna dance, dance, I just wanna dance
I just wanna dance when I fall into a trance
And I shake you off and forget your name

I just wanna dance, dance, I just wanna dance
I just wanna dance when I fall into a trance
And I shake you off and forget your name

I just wanna dance, dance, I just wanna dance
I just wanna dance when I fall into a trance
And I shake you off and forget your name
