Theres nothing left to do, theres nothing more to say
But, goodbye
Ive tried to rescue you, Ive tried to find a way
But, why?

When youre not the one who needs me are you,
Well are you?

You are my story forever
To be retold I never
Thought this was what Id want to be
A moment of history

Im stranded in the dark, waiting for a light to shine
Illuminate me
When loves the hardest part, I remind myself with you
Its never easy

Youre not the one who needs me are you,
Well are you?

You are my story forever
To be retold I never
Thought this was what Id want to be

A moment of history

These words I sing dont comfort me
Im starting to feel like
Theres no one to believe
I cant help hoping this will be
A moment of history

Wind blows and sails upon the rain
Take all these memories away
So much time thinking of yesterday
Wont these storm clouds come and wash away the pain

You are my story forever
To be retold I never
Thought this was what Id want to be
A moment of history

You are my story forever
To be retold I never
Thought this was what I'd want to be
A moment of history
