Im sitting here Im all alone waiting for someone to
notice that Ive been out here for hours.

Call it a night, its time to go.
Its getting cold out but youre in there, the star of the
show.

But theres nothing I can do to change you.
You just havent got the time.

Youre invincible, unconvincible.
Youre an island in the sea.
Surrounded by the starry skies.
Im floating out to be in your light.

Theres nothing new to this I swear.
Im gonna find a way to get through to make it through
all right.

Remember what it was like when everyday was
different a battle yet to fight.
Is there nothing I can do to change you?
Were running out of time.

Youre invincible, unconvincible.
Youre an island in the sea.
Surrounded by the starry skies.
Im floating out to be in your light.

(Instrumental Break)

Youre invincible, unconvincible.
Youre an island in the sea.
Surrounded by the starry skies.
Im floating out to be in your light
