"Where I Go"

Visit "[Where I Go](#)" on MotoLyrics.com

When I can't see your face
Feel your embrace (feel you)
I know your out there baby thinkin' of me
I just wanna be
Just wanna be
I wanna be with you

I think of what I can do
I think of you
I think of the day
When I hear you say
"No matter where I go you'll be here"
Miles to go when your not here
And I'll be there
Where I go where you are
And it'll be miles to go when your not here
Where I go
Miles to go where you'll be, and I'll be standin' smillin'
at you again
No matter where I go

When I go where you are in the sky
I'll be standin there and I'll look up and wonder why
Why'd you go from me?
My love, tell me why when I see you again and we'll be
By the sea
I'll draw a heart for you in the sand
But baby, it don't matter where we are, sea or land

[Repeat chorus twice]

I no (no, no no)
I'll never forget those days
When we were together
We'll be
