Hands in the air for the gentlemen left up there
For the gentlemen in here show the ladies that they
care

Hands in the air for the gentlemen left up there
Where the gentlemen at, where the gentlemen at,
where
Come on boy, come on

Show me how you drop it
Put your money, put your money where your mouth is
So put your hands up, put your hands in your pocket
You don't gotta win no shooting to show some swaggin

Hands in the air put the gentlemen left up there
If you're a gentlemen then come out over and put it on
me

I'm gonna give you a lesson in love
Let your game up, up, up
Open the door wanna come
Open your mouth wanna run

Where have all the good men gone
Without a lady no, no you would've never been born
Boy the pressing pressure is all you got
While we gotta teach you, wassup up up

Hands in the air for the gentlemen left up there
For the gentlemen in here show the ladies that they
care

Hands in the air for the gentlemen left up there
Where the gentlemen at, where the gentlemen at,
where
Come on boy, come on
