Way it's gonna
Way it's gonna

Lately I find I'm caught up in these thoughts
How will you come to me
How will we connect these hearts
Are you somewhere near
Hidden like a four-leaf clover
Are you miles away
Are we getting any closer
Are we getting any closer

I already see us moving mountains
I already see us walk in water
I already see the clouds we're flying
Over and under
I can really see us having babies
Walking through the park and being lazy
I already see myself falling in love eternally
And I think that's just the way it's gonna be
And I think that's just the way it's gonna be

I already see us moving mountains
And I think that's just the way it's gonna be
I already see us walk in water
And I think that's just the way it's gonna be

Being with you
Is a like a scene from a dream in heaven
I feel you running through
All my senses
Will you taste like rain
Can I breathe you like air
Will I lose myself in your arms somewhere

I already see us moving mountains
I already see us walk in water
I already see the clouds we're flying

Over and under
I can really see us having babies
Walking through the park and being lazy

I already see myself falling in love eternally
And I think that's just the way it's gonna be
I think that's just the way it's gonna be

And I know and I know and I know
Love can move a mountain
And I know and I know
It's gonna be even better than I imagined
Putting all my trust in you
Putting all my trust in you
We'll make this dream come true

I can really see us having babies
Walking through the park and being lazy
I already see myself falling in love eternally
And I think that's just the way it's gonna be
And I think that's just the way it's gonna be

I already see us moving mountains
The way it's gonna be
I already see us walk in water
The way it's gonna be
I can really see us having babies
The way it's gonna be
I already see myself falling in love
Meant to be
I already see us moving mountains
The way it's gonna be
I already see us walk in water
To me
The way it's gonna be
I can really see us having babies
The way it's gonna be
