oooh yeah
shoo doo doo doo doo

last night i saw you out
hanging with another girl
tell me what that's all about
you used to be my world
six days seven nights
since we tried to say good bye
but i'm still feeling you
i can't get you off my mind

i tried so hard to fight it
but i can't let you go
no way to deny it

and i bet you she don't love you like i do
and i bet you she's not giving you all that you need
if you don't remember let me remind you
no one in the world could ever love you better than i do

oooh yeah better than i do

don't even fool yourself
she'll never take my place
put her right back on the shelf
she'll never win this race
though all the ups and downs
i was always there for you
and now you think you found
somebody else that's true

oh i could do you better
but you know in the world
always and forever

and i bet you she don't love you like i do
and i bet you she's not giving you all that you need
if you don't remember let me remind you
no one in the world could ever love you better than i do

no way...she'll never take my place

no one can do the things i do
i bring the loving out of you
deep in my heart you know its true, better believe it
you know that you should be with me
i got the loving that you need
it's just the way it's got to be
can't you see it

you i know i treated you right
i know that things that you like
that much i know for sure
no one in the world could ever love you more

and i bet you she don't love you like i do
and i bet you she's not giving you all that you need
if you don't remember let me remind you
no one in the world could ever love you better than i do

no one can do the things i do
i bring the loving out of you
deep in my heart you know its true, better believe it
you know that you should be with me
i got the loving that you need
it's just the way it's got to be
can't you see it

and i bet you she don't love you like i do
and i bet you she's not giving you all that you need
if you don't remember let me remind you
no one in the world could ever love you better than i do

(repeat 2 1/2x until fades out)
