Between you and I  
And the stars that light up the sky  
Nothin' and no one would ever know

Galaxies high  
You take me so far away  
As we journey through tonight  
Or the knife in brown eyes

All I ever need is you to take this crown  
Just lay me down  
All I have is you to pull me through  
This world that I'm in

My love, between you and I  
(Just you and I, just you and I)  
Baby, just can't stop loving you  
Your kisses are haunting my head

Between you and I, darlin'  
Nothin' could get better, baby  
I just love when you call me lady  
Boy, you know it drives me crazy

Violets are blue  
Every color brings remnants of you  
Reach out and touch what you can feel  
Captivated so surreal

Drowning inside  
Of your sorrow so deep  
As I'm lying here beside you  
Infatuated I'm so weak

All I ever needed was you to take this crown  
Just lay me down  
All I have is you to pull me through  
This world that I'm in

My love, between you and I  
(Just you and I, just you and I)  
Baby, just can't stop loving you

Your kisses are haunting my head

Between you and I, darlin'  
Nothin' could get better, baby  
I just love when you call me lady  
Boy, you know it drives me crazy

Baby please, say that you'll understand  
That tonight is a night to love again  
Sweet memories of kisses we used to have in the wind  
And I'll cherish this quiet time we spend

Between you and I  
(Just you and I, just you and I)  
Baby, just can't stop loving you  
Your kisses are haunting my head  
(Just you and I, just you and I)

Between you and I, darlin'  
(Just you and I, just you and I)  
Nothin' could get better, baby  
I just love when you call me lady  
(Just you and I, just you and I)  
Boy, you know it drives me crazy
