I don't know how or where to start
Here we standing again
And I see now from where we are
That our road has come to an end

Though we come this far,
I don't know why
But I still can't see who you are

I don't want you to cry
Don't wanna s-say good-bye
But I know that we falling apart
I don't need your lies
And if you symphathize
Tell me how will I know who you are

It's to late now
That we've gone this far
To see what's here within
Though we said that we never part
Maybe i've been trying to hard

Do you believe in love
I don't know why
But I still can't see who you are

I don't want you to cry
Don't wann s-say good-bye
But I know that we falling apart
I don't need your lies
And if you don't sympathize
Tell me how will I know who you are

Don't worry I promise
It's for the better
So I think we should let it go now
And maybe we'll findI love again
