The time when I was down and out
No lovin in my life
This angel came and brought about
the meaning of so right
Took my dark and lonley days into the light
With his loving ways

Chorus:

He's my wonderful
Everything a girl could want to love
And all I need
Yes he's my wonderfull
He must have been sent from up above, just for me

Gotta have him close to me, each and eery night
To give me that security of dreamin' in delight
Lovers got a grip on me, oh so tight
Hope he never lets go

Chorus

Cause I never wanna be free, from this lovin care that
most people never see
And at night I pray that I'll have my way, and have your
love for eternity

Chorus

No one could ever do for me
the things he does, cause he's

Repeat 4 times:

He's my wonderful, everything a girl could want to
love, and all I need
Yes he's my wonderful, must have been sent from up
above, just for me
