This is the place to be this is why I dont have jealousy
and round here I love ya baby and we are so alike we
say things together we are ment, ment for each other!

Round here, I love ya back
Round here, I want ya to
Round and round and round
again...
this is where we are at
its round here...

This is the song I sing and you are my sweet heart and
so fine! ya never would treat me bad coz we know each
other to well, my friend, actually your more then that!
and I am ment for you

Round here, I love ya back
Round here, I want ya to
Round and round and round
again...
this is where we are at
its round here...

You never take things into your hands and leave me
out coz your not that kinda guy and I'm the kinda girl
that wants the perfect man and round here I found him
to be you

Round here, I love ya back
Round here, I want ya to
Round and round and round
again...
this is where we are at
its round here...Round here, I love ya back
Round here, I want ya to
Round and round and round
again...
this is where we are at
its round here...
