You're the one can move me
When I don't wanna be move
You're the one that impreaise me
When I'm stand

You're that's inside of me
When I think I'm in love
You're the one that invites me to dying with you

I see the way (I see the way)
I see the truth(I feel the true)
I see the life in me, oh
You are the way
You are the truth
You are the life in me, ooh...

Nothing can ever pantch first
No one else can sedue
You got me first, now I love you
Ooooh

You rush my feet
Still imagine fray times
You forgive myself so sweet

I see the way (I see the way)
I see the truth(I feel the true)
I see the life in me, oh
You are the way
You are the truth
You are the life in me

I'm needing you since the beging

You are the way
You are the truth
You are the life in me...
